Summary

Full-stack web developer and AI/ML engineer with a strong academic record (CGPA: 9.13) and hands-on experience building production-grade systems. Proficient in the MERN stack and modern Python frameworks, with demonstrated ability to architect complex solutions — from a multi-agent LLM pipeline that cut startup analysis time by 82% (FounderMind) to a BERT-based neural network for automated assignment evaluation (AssessAI). Experienced in developing and deploying RESTful APIs, data scraping pipelines, and deep learning models using PyTorch and Hugging Face. Passionate about integrating AI with scalable web technologies to solve real-world problems, and committed

Education

B.Tech in Computer Science and Engineering at Charotar University of Science and Technology — Anand
CGPA: 9.13/10

Experience

Web Developer Intern, Nimblechapps Pvt. Ltd. — Ahmedabad, India Nov 2024 – May 2025

- Working on full-stack web development using the MERN stack for production-level applications.
- Developing and integrating RESTful APIs for real-world application features.

Skills

Python

Projects

GigWorld — Freelance Gig Finder

[Project link](#)

- Developed a platform to aggregate freelance gigs across the internet using Vite, React.js, and Tailwind CSS for the frontend.
- **Skills:** Vite, React.js, Tailwind CSS, Node.js, Express, MongoDB, Selenium, BeautifulSoup.
